Sample Abstract for International Workshop on Hadron Physics

A.B. Charly[a], D.E. Foxtrot[b] and G.H. India[c]

[a] *Alpha Institute,* [b] *University of Beta,* [c] *Gamma University*

1. Format

The abstract should fit into one page of size A4 (print area 160 mm x 240 mm, no page number). The manuscript should be submitted in the form of a single standard postscript or pdf file, optimized for portability. The LaTex source file ABSTRACT.TEX can be used as a template. [1]

Figures should be readable also after an eventual reduction of the abstract to half size (A5).

2. Submission

Electronic submission is strongly recommended. Should this not be possible, send a camera-ready paper copy by regular mail.

The deadline for Abstracts is May 31, 1999.

By submitting an abstract the authors agree to its publication at the conference web site.

time	particle number	state
early	0	$a_\omega f_\omega + h.c.$
late	$(exp(8\pi M\omega) - 1)^{-1}$	$(b_\omega p_\omega + c_\omega q_\omega) + h.c.$

Table 1.

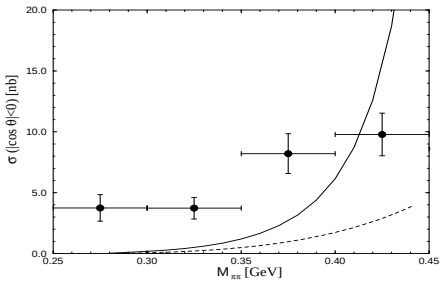

Figure 1 - FIGURE.PS

Sample formula

$$ds^2 = g_{00}dt^2 + g_{ij}dx^i dx^j. \tag{1}$$
